Exhibits on Hygiene.

How to wash the air, why the color of the walls affects a child's vision, the "curve of learning," and the operation of the aesthesiometer and ergograph are among the exhibits to be made by the United States Bureau of Education at the first exhibition ever given in America which deals with the general field of public health. The Bureau's exhibit will show the hygiene of the school and the school child, as part of the exhibition to be held before the Fifteenth National Congress on Hygiene and Demography, meeting in Washington next September.

Among other advance information just given out, the Education Bureau specialists who have the school hygiene exhibit in charge, make the statement that one exhibit will show that stammering is about three times as common among boys as girls.

The Bureau of Education's exhibit is divided into sections. The first of these considers the hygiene of the school child, taking up such subjects as food, sleep, and clothing. With the co-operation of school architects and makers of school furniture and school appliances, from all over the country, the Bureau is also preparing exhaustive exhibits on the hygiene of the school building and the hygiene of instruction. Other sections of the school hygiene exhibit will take up the hygiene of physical defects, the medical inspection of school children and open-air schools.

Will Lead to Victory.

Among the newspapers of the state that have helped to swell the mighty chorus of congratulations over the nomination of Dr. H. D. Hatfield by the Republicans for governor and that have, at the same time, appreciated his eminent fitness for the position, is the *Washington Daily News*, which is also enthusiastic over the satisfactory ending of the gubernatorial contest. The *News* is confident that harmony pervades the party throughout the state as a result of the primary and that the ticket headed by Dr. Hatfield is certain of victory at the polls in November. Says the *News*:

In the nomination of Dr. H. D. Hatfield for governor of this state the Republican party has selected one of its strongest men, and a man who is sure to carry the ticket to victory in November. And notwithstanding this is true, we think either of his opponents was worthy of the high honor and could have carried the state by handsome majorities. The contest between these leaders in the party was a sweet spirited one and those who know the Republican metal of which they are made are fully aware that they will bow to the will of the majority and will work diligently for the success of the victory at the polls.

BOYS

And Girls Are to Be in the Saddle at "Buffalo Bill" Circus.

Stylishly at speed, throwing the lariat, reviewing the methods of the pony-express and quadruped—along on the pike through the mazy maze, the "swing your neighbor" quadrille and the charmingly graceful, balancing themselves on the goat-grator of the plains, the wild bucking broncho, the original "Dip of Death" creator, are a few of the excellent feats of horsemanship executed by the cowboys and ranch girls with Buffalo Bill's Wild West and Pawnee Bill's Far East here Friday. These exhibitions of skill are accomplished with a rocking-chair grace, with apparently the ease of riding a hobby-horse. But such is not the case, for one of the most difficult of their tasks is bridling, saddling, mounting and retaining a seat on the broncho from Colorado, and the airy and treacherous mustang from Texas. As these ostentatious and liberty loving ponies hurdle high into the air, and then tumbling heavily on the ground use a hundred biting and kicking stunts to dismount their unwelcome rider, many a "spill" is taken.

The riders of the Far East section are equally as skilled in their peculiar art in the saddle, led by the Russian Cossacks who compete strenuously for equitation honors. The wonderfully educated elephant, "Minnie," in Prof. Gruber's sextette of man, lady, horse, pony and dog performs marvelous accomplishments. The troupe of Russian dancers are wonders; the fox-hunt, mimic Indian battles and scenes are all interesting and educational.

BAD BREATH
It's Your Duty to Get at the Cause and Remove It. A Word to the Wise, You Know.

Dr. Edwards' Olive Tablets, the substitute for calomel, will positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant sugar-coated tablets are taken for bad breath by all who know them.

Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system of impurities.

They do all that calomel and other drastic drugs do without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Olive Tablets without griping, pain or disagreeable effects of any kind.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Olive Tablets are a purely vegetable compound mixed with olive oil. Try Olive Tablets today. Take one every night for a week and note the effect.

"Every Little Olive Tablet has a movement all its own," Dr. Edwards says.
